Annual Message to the Citizens of Hyde Park

by the

School Directors and the Superintendent

THE EDUCATIONAL PROGRAM

Never before has there been such keen interest in education. In this post-war period everyone is talking of the things that we must do to maintain our way of life. To the end of developing the best possible educational program in our community, your Board has adopted the following philosophy of education:

"The purpose of public education in Hyde Park shall be to develop individuals who can live successfully in a democracy. The children of our town must be trained to see and to solve their own problems. In realizing this program certain areas of successful living must be coped with. Among these training for (1) health, (2) salable skills, (3) leisure time activities, (4) citizenship, and, (5) home membership need be provided. The school should present a program that will teach the lessons of the past, study the problems of the present, and consider the possibilities of the future. To achieve a proper training the education of our children must be a living experience."

This is a long term program and will of necessity be achieved slowly. For the coming year the transition from where we are to where we wish to be will require some additional expenditures. These, for the most part, will provide for the increased cost of materials, supplies, salaries, repairs, etc. Our Commercial Department will be rounded out. Some changes will be needed in room arrangement in order to more efficiently house our school. We should consider these costs as a step toward the perfecting of our educational offering.

The following is our view of the next stage in realizing our accepted philosophy. Hyde Park's school budget represents the educational program for the coming year.

PROPOSED EXPENDITURES

	1946 Budget	1946 Actual	1947 Proposed

Tax necessary to raise this amount--	\$2.25 on Grand List

TRANSPORTATION

The Hyde Park transportation system has compared favorably with that of other towns in Vermont. Now, however, the increase in our school population raises a problem. The facilities which we now hire are inadequate to transport the children within the legal requirements of law. We have been able to carry on during this school year under war emergency regulations which will soon expire. Thus we are faced with the decision either of providing for added facilities or of increasing the walking distance to school.

Your School Board does not advise the buying of buses by the town. We believe that a wiser plan is to hire the necessary equipment. But in order to safeguard the town and the carrier it is necessary that this arrangement be to contract covering a period of years. We are, therefore, placing a warning before the voters asking authority to make such a contract on a ten-year basis. The estimated yearly increase in cost will be \$650. This sum is included in our budget estimate for 1947.

	Grade	1	2	3	4	5	6	7	8	9	10	11	12	TOTAL
Village	16	15	12	21	16	14	23	16	15	19	11	4	—	180
North Hyde Park	13	11	9	11	8	12							—	64
Garfield	1	1	5	2	4	2	4	1					—	20
TOTALS....	30	27	26	35	28	28	27	17	15	19	11	4	—	264

This enrollment is an increase of 44 pupils over last year. You will notice that the numbers in the first six grades at the Village School total 94. There are 43 in the lower room and 51 in the upper room.

At the present time we have a helping teacher who aids the grade teachers for four periods a day. With building changes, however, it will be possible to have another grade room. Thus by adding a half time teacher we will have three elementary rooms. This will reduce the pupil-teacher load to about 31 students.

The small numbers listed in the upper four grades is worthy of notice. Apparently large numbers of our high school age youth do not elect to continue through our high school. We must face the necessity of providing an educational program that will keep all high school age youths in school. This is the least we can do to prepare our children for life in this complicated culture. Many people believe that the eventual answer will be a consolidation of our high schools on an area basis. For the present we will endeavor to broaden the base of our educational program.

SCHOOL ENROLLMENT

(as of Jan. 1, 1947)

THE COMMERCIAL DEPARTMENT

We plan to broaden the Commercial Course to include Typing II, Shorthand II, and Commercial Arithmetic. Part of the time will be devoted to office practice. It is our hope that actual experience work can be arranged for Senior Commercial students in the area. We feel that our Commercial Department should prepare our students to compete successfully with graduates of other schools. In a tentative survey of the students, to ascertain the number interested in the commercial work next year, 27 indicated intention to work in this field. This is about double this year's figure.

To provide a room for the expanded Commercial Department certain building changes are needed.

A GUIDANCE PROGRAM

In all fields of endeavor our children need help and guidance in adjusting to life. We are establishing a library and counselor system to help our youth. Not the least of these fields is a need to prepare for a life's work. This is not a simple matter.

THE TEACHER SITUATION

The prime school subject for debate again this year is the matter of teacher salaries. At the time this report is being prepared we have before us the report of the Gibson Teacher-Training Committee. This group is recommending a salary base ranging from \$1,500 for non-certified teacher to \$1,900 for a rural teacher with a degree. This recommendation is for the minimum. Of course the state is expected to help out to the tune of two-thirds of the cost of the increase. How much of this program will be voted by the Legislature is a matter of opinion, but something will certainly be done. Since this is the best available information at hand we are preparing our budget accordingly.

MISCELLANEOUS NOTES

You will note that several items in the budget have been broken down to per pupil basis. This will make it easier for you to interpret the school program costs in terms of your individual children.

The health program will be continued this year. In view of the pending health legislation it is deemed wise to be ready to take advantage of any facilities for our children. A pre-school clinic will be held for all of the youngsters who will enter the first grade next year.

It is our sincere hope that the town will vote to continue the Health Nurse Service. The lack of a nurse during this school year has been particularly noticeable after the fine job that has been done in this department in the past.

A cumulative record system is being set up. This will be a ready reference file for the teacher. It will include marks, health records, test scores, and other important information about your children. It is particularly important in a time of rapid teacher turnover that a continuous record be kept.

The fine spirit shown by the Garfield School Club is worthy of note. This group has sponsored several dances as a means of raising funds for the betterment of the school. One of their projects has been to install electric lights in the schoolhouse.

Your Board and your Superintendent are interested in bettering your schools. Your suggestions on educational matters will help in this undertaking.

Respectfully submitted,

Lilah F. Waite, Chairman and Clerk.

Irving Matthews.

Lula F. Potter.

Robert L. Lorette, Superintendent.

S. B. CHAPIN, for the Trustees

Vermont Old Age Assistance Department

120 State Street
Montpelier, Vermont

For the information of your taxpayers the customary annual statement is presented for your Town Report:

Payments of Old Age Assistance to persons applying from your town amounted to \$6,691.50 during the year Jan. 1, 1946, to Dec. 31, 1946.

Payments for funeral expenses \$200.00.

The number of recipients in December, 1946, was 25: monthly payment \$25.50.

The maximum payment which can be made by this department is \$40.00 per month. In October, 1946, we were able to make payments above \$30.00 for the first time. This was due to an appropriation of \$50,000 by the special session of the Legislature and a temporary change in the basis of federal matching. Congress authorized the Social Security Administration until Dec. 31, 1947, to reimburse the states \$10.00 for the first \$15.00 paid. For the balance of the payment the old 50-50 matching basis is still in effect.

Many increases were made to meet cost of living budgets. Grants are practically up to date on current investigated applications. Intake has increased and is now on a pre-war basis of about 100 applications per month.

Average Grant, December, 1945, \$23.38

Average Grant, December, 1946, \$29.14

This department has always received a high degree of cooperation from local officials and interested individuals. On behalf of the agency I extend thanks.

Very sincerely yours,

W. L. SEWARD, Director

Report of the Public Health Nurse

Following is the report of services rendered for the period Jan. 1, 1946, through June 30, 1946:

To Ill Persons:

9 visits were made to give some form of nursing care.

To Mothers:

58 visits were made to expectant mothers and to new mothers of newborn babies to discuss care of themselves and their babies and to give nursing care when needed.

To Infant and Pre-school Children:

214 visits were made to homes to discuss with parents the health needs of their small children.

38 children were given medical examinations by the local physician at medical conference.

19 children were protected against smallpox by vaccination.

38 children were protected against diphtheria by toxoid.

To Schools:

32 visits were made to schools to give personal hygiene inspections, to arrange for medical examinations and to assist teachers with health teaching and with health problems of pupils.

91 visits to homes of school children to discuss health problems with parents and to help arrange for corrections of defects or conditions.

Last year there was an increase in the number of cases of diphtheria in the state. We earnestly urge parents with children who have not been immunized and vaccinated to secure these protective treatments from their family physician.

Although there has been no public health nurse in the area for the past six months, assistance has been given

to the local health committee members with plans for examination of the school children as soon as possible this year. We again urge parents to have those corrections made which have been recommended at previous examinations of their children.

Respectfully submitted,

ESTHER L. MARTINSON, R. N.
Public Health Nursing Supervisor

Warning

FOR ANNUAL TOWN AND TOWN SCHOOL DISTRICT MEETING

The Legal Voters in March Meeting and Town School District Meeting of Hyde Park are hereby notified to meet at the Town Hall, in said Town, on Tuesday, March 4th, 1947, at 10:00 o'clock in the forenoon, to transact the following business:

ARTICLE I. To choose a Moderator and Clerk.

ARTICLE II. Shall license for the sale of malt and vinous beverages be granted in this Town? Shall spiritous liquors be sold in this Town?

ARTICLE III. To hear the report of the Town Officers and take proper action thereon.

ARTICLE IV. To see if the Town will authorize its Selectmen to appoint a Road Commissioner, or whether they will elect him by ballot.

ARTICLE V. To elect all necessary Town Officers for the year ensuing.

ARTICLE VI. To see if the Town will vote to raise more than the twenty cents on the dollar of the Grand List provided by law, for highway purposes; and, if so, how much.

ARTICLE VII. To see what tax the Town will vote to pay the current expenses of said Town for the ensuing year and to pay the indebtedness of said Town; also to pay the Town's share of the State Highway System and County Taxes.

ARTICLE VIII. To see if the Town will elect an Agent to Convey Real Estate, as provided by law.

ARTICLE IX. To see if the Town will vote to have all its taxes assessed as one tax.

ARTICLE X. To see if the Town will appropriate \$25.00 for Memorial Day.

ARTICLE XI. To see if the Town will vote to raise a sum of money in addition to the amount raised by law for highways, to take advantage of the State Aid Law, and, if so, how much.

ARTICLE XII. To see if the Town will vote the sum of \$265 toward the support of the Public Health Nurse (Maternal and Child Health Nursing Service) in order that the service already established may be continued, and in such manner as to take advantage of Federal Aid.

ARTICLE XIII. To see if the Town will vote, in case there is no Public Health Nurse, that the above named sum or some part
